

My name is Javonna Williams and I am from Kemper County. I am a sophomore at East Mississippi Community College, majoring in Social Work. I currently work at Kemper County Chancery Clerk office as one of the Deputy Chancery Clerks. I was able to obtain this job with the help of Ms. Latricia Temple of the Arbor Education and Training program.

Arbor Education and Training program helped me to enhance my interviewing skills; it also helped me to manage my budgeting better. Working through Arbor Education and Training helped me also with my people skills. My teacher at Arbor taught me how to address a manager of the office I am seeking employment through, and also how to dress for the occasion.

Arbor Education and Training program also helped me with personal life skills. When I was not able to provide transportation for myself, Ms. Temple helped me. I appreciate the help and education that I received from Arbor Education and Training program.

I would like to recommend any young person that needs help in finding a job or even with just doing their resume or brush up on their interview skills to enroll with Arbor Education and Training program.
